Product Obsolescence Notice

Biffi LSB (Limit Switch Box)

Effective immediately, The Biffi Limit Switch Box will be discontinued and replaced with an equivalent outsourced box, which is manufactured by carefully selected producers and in full compliance with previously supplied capabilities and standards.

The Biffi Limit Switch Box was a specific solution, created to compensate for a market gap, that can be easily covered by dedicated producers today.

To guarantee the highest flexibility and a smooth replacement process to our customers, we decided to discontinue the product, thus granting a greater range of certifications, materials, temperature, switches and high view indicators like the Beacon.

If you have a product to replace, you can contact the Biffi Spare Parts Department to define the best possible solution and the adaptation kit needed to properly fit the new selected product.

Replacement requests can be sent by email to the BIFFI Spare Parts Office: biffispares@emerson.com.

For further information, please contact your Actuation Technologies Regional Sales Representative or call +39 0523 944 411.
[Email here for more details.](#)

Thank you for your continuous commitment to our products.
We look forward to addressing your future actuator and process control needs.

Sincerely,

Massimiliano Franco
Product Manager Pneumatic and Hydraulic Actuators
